

LABORATORY GRADE ASPEN and SHREDDED ASPEN SHAVINGS

Contact Bedding Processed from
Virgin Aspen Hardwood

- Compatible with all animals, including transgenic breeds
- Heat-treated to reduce bacteria and enhance absorbency
- Proven track record of superior performance
- Shredded variety is particularly suited for nesting and animal enrichment
- Aspirated to remove dust
- Regular changing prevents the development of ammonia
- Creates a comfortable habitat with a natural appearance
- Proven performance for micro-isolator cage systems
